

VETERANS APPRECIATION MONTH

Job candidates with military backgrounds possess the skill sets and personal characteristics that businesses want. Many have great leadership ability, initiative, and self-discipline. They often received an excellent education, have a real sense of responsibility, and have been well trained. Veterans are prime candidates for security clearances. They are highly motivated men and women from a wide variety of cultural, ethnic and racial backgrounds. We urge our business and community partners to hire a Vet!

Veterans, please be aware of the following:

Veterans Job Fair
