## Program Description

Springfield Technical Community College Workforce Development in collaboration with MassHire Career Centers of Springfield and Holyoke will be providing technical training on blueprint reading, shop math, precision measuring tools and how to operate Computer Numerical Control (CNC) machinery through combined in-person course work and participation in online Tooling-U Manufacturing Training.

### Employment Outlook:

- Employer demand for program graduates is ongoing
- Competitive wages and benefits
- Career pathways to machinist, toolmaker or CNC Programmer

### Prerequisites/Requirements:

- Unemployed or Under-employed
- 18 years of age or over
- High School Diploma or equivalent
- Legally able to work in the United States
- MA resident with valid State or Federal ID
- Meet attendance expectations
- Have an internet device, preferably a laptop or computer and a stable internet connection for online assignments
- Passing score on the Bennett Mechanical Comprehension Test
- Complete all required documentation with MassHire Career Center & STCC
- Commitment to seek full-time employment in the field

This training program is funded by the Mass Technology Collaborative. MassHire Program & Services are funded in part by the U.S. Department of Labor (USDOL) Employment and Training Administration grants, as well as non-federal funded grants.
